

Any Sense of Mystery

Struck a chord, sparked a wave
Beated drum, brain relayed
Synapse aligned, currents link
Still not sure, what to think?

Caressing skin, outlined curves
Story told, excited nerves
Tissue response, hot or cold
Message sent, but understood?

Numeric rise, pollen counting
Parts per million, asthma trending
Still cortex swoon, to fragrant drifts
Scents the world, in Heaven's lift?

Salty, sour, bitter, sweet
Uncleansed air, for breathing meat
Wedding feast, turns Canaan fast
Did the host save, best 'til last?

Pupils dilate, incoming light
Visions gate, unhinged sight
Retinal code, unscrambled, free
Image received, but did we see?

The Mystery
